

## CHIROPRACTOR ON STAFF AT HOLY INFANT HOSPITAL

Holy Infant Hospital is pleased to announce the addition Nathan Kadlec, Doctor of Chiropractic, to the staff. Dr. Kadlec started seeing patients 11-5-09. He will be in Hoven on Tuesdays and Thursdays from 8 a.m. until noon.

Dr. Kadlec, 28, has been practicing in Ipswich since November 2007. He grew up on his parents' farm near Ipswich. He is the son of Ron and Patty Kadlec, who also operate a feedlot cleaning business. He graduated from Ipswich High School in 2000 and attended college in Jamestown, ND with a major in pre-med and biology. He attended Northwestern Health Science University in Bloomington MN and obtained his Doctor of Chiropractic degree in 2007. He and his wife, Deidre (Geditz) and young family returned to Ipswich, where he started ActiveCare Chiropractic. They are the parents of 3 year old Xavier and 15 month old Gracyn.

Kadlec is involved in the Knights of Columbus, Holy Cross Church, Trail Days Committee, Sportmans Club and is currently the president of Ipswich Commercial Club. He is also a member of the SD Chiropractic and American Chiropractic Associations.

Dr. Nathan's inspiration for studying chiropractic came as the result of being treated for a sport related knee injury by Dr. John Carr of Miller. The treatment enabled him to play basketball through the Ipswich Tiger's run to the state tournament his senior year. "If I can affect one person's life the way my life was, it will all be worth it," he said.

Dr. Nathan's focus is on general chiropractic and treatment of injuries/conditions that have resulted either from sports, agricultural or related activities of daily living. Family wellness is also an integral part of Dr. Nathan's treatment and philosophy. He believes in the effectiveness of making healthy choices on a daily basis and enjoys teaching patients about prevention, giving talks to groups, writing articles on various conditions and speaking on the many aspects and benefits of a "Health Based Approach to Life."

As a Doctor of Chiropractic, Kadlec is considered a primary care physician and has been approved for hospital privileges at Holy Infant Hospital, including x-ray and laboratory services. He is licensed to perform routine physicals, including screenings for heart, lung, eye, ear and nose function as well as orthopedic and neurological screenings. He also performs school and sports physicals as well as DOT and pre-employment physicals. He has trained in a variety of chiropractic techniques. In addition to privileges at Holy Infant Hospital, he also has referring provider status at Dakota Plains Surgical Center.

Dr. Kadlec is currently accepting new patients in Hoven and is very excited to work with the community and Holy Infant Hospital. To schedule an appointment please contact Holy Infant Hospital at 605-948-2262.
