Individual endowments

I am only one

I am only one, but I am one.

I cannot do everything, but I can do something;
and what I should do and can do,
by the grace of God, I will do.

- Helen Keller

Belief in the value of each life and in the ability of each individual to “make a difference” is a core value of small rural communities such as ours. It has been a driving force in our schools, churches and hospital. These basic institutions have nurtured and shaped us into who we are – unique individuals making a difference in our world.

Now one of these institutions, Holy Infant Hospital, is asking us, as individuals, to “make a difference.” As it restructures to be able to continue serving this community area, our hospital is in immediate need of capital to continue operating. We are also actively seeking a doctor. Dr. Ramirez has ably served our area for many years. Any networking or contacts you could make to assist us with a doctor search would also be appreciated.

Just as one spark can set a fire or one vote change a nation, your one contribution could help save one hospital. Please help by considering a generous endowment to the Hoven Healthcare Fund so our hospital can continue to save lives and improve lives – one unique individual at a time and one step at a time.
